MODULE CODE: JPS1101/EPSY1102

LEVEL AND SEMESTER: 1:1

DATE: JUNE 2026 **TIME: 3 HOURS**

INSTRUCTIONS TO CANDIDATES

1. Answer **any three** questions.
2. Begin each answer on a separate page.
3. Write your candidate number on each sheet of paper.
4. Illustrate your answers with Zimbabwean examples.

INFORMATION TO CANDIDATES

1.Each question carries 100 marks.

NB: This paper consists of **two** printed pages.
Do not turn over the paper until you are instructed to do so

1. Leaner X is struggling to learn long division. Using the information Processing Model, identify where the bottleneck might be occurring in her memory. Examine any five strategies that can be used to assist them to encode this information to the long term memory. **[100]**

2. Discuss the role of motivation in empowering and engagement in the Heritage-Based Curriculum

   [100]

3. In a particular school, a child comes to class on empty stomach/hungry. Using Maslow's Hierarchy of Needs, discuss the effects of the scenario on the child's academic performance and the concept of self-actualization
   [100]

4. During examinations, learners with visual impairment are expected to write the same papers under the same conditions as other learners. Using any five inclusive education principles, analyse this assessment practice and recommend appropriate accommodations and modifications
   [100]

5. Learners with disabilities are often discriminated against by other learners in schools. Discuss any five strategies a teacher can employ to encourage other learners to accommodate them.
   [100]
